From the Editor

I hope your all enjoying the summer months! We are trying to stay cool here in the Carolinas and thinking of all the fun coming up this fall. If you haven't yet, please think about sponsoring a class for the IHCUS National specialty. Mandy, Lisa, Chris and Janet (and so many others) have poured a lot into the upcoming specialty and you won't want to miss it! Please also look at the calendar of events in your Third Eye to look at some of the great events in your area. Don't see your event?

Contact us to be sure your event makes it into the Third Eye. Please be on the lookout for cover worthy photos too- I love your submissions! Finally, Thanks so much to all of you for your continued patience with me as I try to balance all the hats I wear. I am very excited to have been elected your new Vice President, and I hope that I am able to serve you all in a noteworthy fashion.

Your friendly Third Eye Editor,
M. Pierotti-Tietje

From the President

Dear Members:

I want to thank you for entrusting me with such an important role in IHCUS. Some of you have already expressed your encouragement and support for which I am most grateful. There are two outgoing Board members who I feel deserve recognition for their work and years of dedication, Teddy Burke and Carol Kauffman. These ladies house a wealth of knowledge and admiration for the breed. Carol will continue to serve as the Outreach Chair and Teddy will provide expertise as needed while enjoying her retirement.

We have many experienced Board members remaining for the next term, just changing roles: Chris Allen – Director/Webmaster, Robin Castillo – Director/Ways & Means, Janet Rivers – Director/2015 Performance Trophy Chair, Meegan Pierotti-Tietje – Vice President/Third Eye Editor/Breeder Referral and Lisa McKay, remaining as past President/2015 Conformation Trophy Chair. I look forward to working with and learning from our new Board Members: Denny Nester - Treasurer, Terrienne Basch - Secretary and Ariel Harper – Director. I feel this is a wonderful mesh of not only expertise within the breed but geographical areas and activity differences performed with their dogs.

With social media, we all certainly have expanded our knowledge and acquaintance base but I still feel like we don't know much about each other, heck most of our FB profile

pictures are a dog. So here is my mini bio for you: my husband (Rob) and I reside in

Northwest Arkansas but have lived all over the US. I have three kids two of which own Ibizans. In my work life, I have had wonderful career experiences which included Human Resources, Bookkeeping, Client Services and Office Management. I have had the pleasure and responsibility of serving as a Military Family Support liaison, as an officer and director with kennel and coursing clubs and corporate Boards with previous employers.

My purpose in this role is to maintain positive growth and awareness of the Club. Creative problem-solving, motivation and dedication are a few of my qualities. My plan is to be approachable, foster lifelong learning from those around me and those I plan to meet, promote fun and participation, and support the club and breed with a professional approach.

I hope many will join me in promoting PRIDE throughout IHCUS and the dog community across the nation.

P.R.I.D.E.

Professionalism:

We are all proud of our breed; pet, show or performance. Our members should be dedicated to preserving our breed regardless of the type, coat or activity they prefer. Our club shall continue to provide a collaborative environment for sharing information, resources, expertise and assistance.

Respect:

We shall treat people, members and fanciers alike, with tolerance and dignity by acting professional and in accordance with the AKC Code of Sportsmanship to our dog community.

Integrity:

We shall adhere to high moral and ethical standards. Honesty and sincerity should serve as our foundation in dealing with each other and the community in general. In all we do, we should commit to uphold our values and code of ethics.

Dedication:

We are devoted to protecting our breed, it's health and standard.

Excellence:

We strive to maintain the highest standards within the breed, whether it be in considering placement of dogs, young or old, breeding plans, health testing and overall care of the hound. We want to be the person our dogs believe us to be.

Respectfully submitted,
Christy Shaw
President 2015-2017

“BOOTS”

12/14/11-2/12/15

It seems in a moment, your whole world can
shatter

Like morning dreams they just disappear
Like dust in your hand falling to the floor
How can life ever be the same

'Cause my heart is broken in pieces
Yes my heart is broken in pieces
Since you've been gone

It's all too easy to take so much for granted
But it's so hard to find the words to say
Like a castle in the sand the water takes away
How can life ever be the same

'Cause my heart is broken in pieces
Yes my heart is broken in pieces
Since I've lost you

Ooh now you'll never see
Ooh now you'll never know
All the things I planned for you
Things for you and me

I held your hand so tightly
That I couldn't let it go
Now how can life ever be the same

'Cause my heart is broken in pieces
Yes my heart is broken in pieces
Since you've been gone

“Since I Lost You – Genesis”

Your memories will
always make us smile
and you'll forever be in
our hearts. With love
from all of us touched by
your strength, courage,
affection and beauty.

Bred by Exhibitor	Best of Breed Competition

Non-Regular Classes Involving Single Dog Entries

The following non-regular classes will be provided for both dogs and bitches
 Entries in the following classes may be spayed or neutered
 Winners from these classes are eligible, if undefeated in another class, for Best of Breed competition
Veteran I Class - 7 years and under 9 years on the day of the show
Veteran II Class - 9 years and older on the day of the show
Lure Coursing Class - For Dogs and Bitches that have received a lure coursing field trial title (JC title not eligible). Entry in this class is not eligible for winners dog/bitch.

Non-Regular Classes Involving Multiple Dog Entries

STUD DOG CLASS - For Stud Dogs and at least two, and not more than four of their Get. It is not necessary that the Get be under the same ownership as that of the Stud Dog. The Stud Dog may be entered in one of the Regular Classes or, if a Champion of Record, in Best of Breed competition, but must be entered in the Stud Dog class. The Get must be entered in one of the Regular Classes or, if a Champion of Record, in Best of Breed competition.
 The Stud Dog shall be considered one entry and requires one entry fee - this being the regular fee \$35.00 or the additional class fee \$28.00, if the Stud Dog is entered in another class. The Stud Dog must be shown in the ring with the Get. The class will be judged based on the merits of the Get. While the merits of the Stud Dog are not to be considered in the placement of the entry, the Stud Dog must be examined to determine if it has a condition that would require its disqualification or excusal under the dog show rules, AKC policy, or the standard of the breed.

Brood Bitch Class - same as for Stud Dog except substitute Brood Bitch for Stud Dog and Produce for Get. As the judge's decision in the Stud Dog & Brood Bitch classes will be based on the merits of more than one dog or bitch, no one of the dogs or bitches making up the entry judged first in the class will be eligible to compete for Best of Breed by virtue of having won either of these classes.

*Chapter 11, Section 8 of the "Rules Applying to Dog Shows" provides that a neutered male may be entered as a Stud Dog in the Stud Dog Class and a spayed Bitch may be entered as a Brood Bitch in the Brood Bitch Class.

Brace - (For two dogs of the same breed and must have at least one common owner and presented by a maximum of two handlers.) They need not be entered in any other class. If more than one Brace is entered by the same owner, the dogs comprising each Brace must be so designated, "Brace No. 1," "Brace No. 2," etc.

Member Spotlight: Mandy Kleiman-Parkins

Written by Shannon Bridewell

Mandy Parkins knows how to have fun with her dogs and celebrate the unique things that make Ibizan Hounds the dogs we all love. Though a relative newcomer to the breed, Mandy quickly fell in love with these goofy, fun and loving dogs. She, like many, was initially attracted to their looks and the beautiful, effortless elegance of Ibizan movement but soon discovered the depth of their sparkling personalities. "Beezers have such a fun-loving attitude," says Parkins, "and while they may not be as outgoing as say, a Lab, I haven't met one that wasn't a total sweetheart." Parkins goes on to say that she considers it a huge compliment to be loved back by an Ibizan hound. It was Sarah Murphy's Elin that sealed the deal for Parkins. She was won over by Elin's "beauty, elegance, and sweet personality" and decided that she needed a Beezer in her life.

Mandy and her hound Darwin have competed in numerous types of events from a brief run in conformation shows to rally, barn hunt, lure coursing, and agility, which is Darwin's favorite. "Even when he's being a total goofball, he loves it, and everyone who watches him can't help but have a smile on their face!" It was one of Parkins' great joys to see how easily and quickly Darwin took to lure coursing and the other performance events, stating how amazing it was to see their pure

instinct come out of the field despite never having seen a "bunny" before. It is in these events that Mandy has some of her favorite moments with Darwin. "He often gives me a pre-run hug and kiss, to remind me that even if he's about to be slightly naughty, that we still have an incredible bond and love for each other. You couldn't possibly be mad at him, no matter what types of antics he pulls!" Clearly Darwin is a major character and derives much joy from participating in events with his person. Parkins hopes that someday she and Darwin can try open field coursing.

Like most owners she feels that the most important aspects of the breed are their health history, structural soundness and temperament. Though Parkins admits to only having experience with smooth-coated dogs she feels that regardless of having a smooth or wire coat the Ibizans can "perform the job they were originally bred for with equal brilliance." As such, coat considerations are merely a matter of personal preference. Demonstrating his soundness, Darwin has earned his AKC Field Championship and continues to lure course as a veteran, running an honest course and giving it his all. He has used these skills to successfully QC (Qualified Courser) several other dogs. Despite his late start in these types of events Darwin's Agility skills and flexible nature continue to impress. So much so that he has received the IHCUS Silver Versatility Award and is working on his Gold level.

When asked what she has learned, and would pass on to others, about life with Beezers, Parkins shares that they require a lot of patience and understanding but that it is definitely worth it in the end to know the love of a Beezer. She also believes that it is important to meet as many different Beezers as a person can at different ages and from different lines.

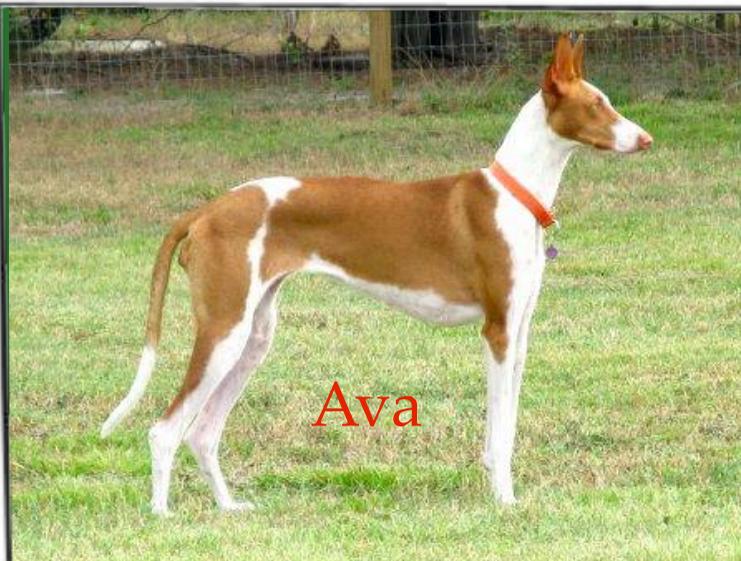

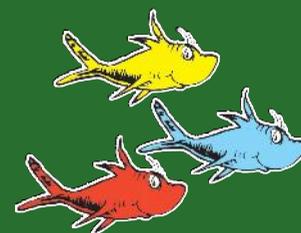

Parkins is extremely proud of Darwin's journey from

overcoming his early years to now. She says that when she first got him he was wary of new people, especially men, and would even sometimes growl at them. He very rarely let people pet him. Now, he practically drags her over to meet strangers and is patient and mellow with children. He is very tolerant of her rambunctious border collie mix, Penny, and even puts up with her jumping on his back! Darwin is a sweet boy that will try to do anything that Parkins asks and remembers what he has learned.

Life with Darwin sounds very fun. "He certainly makes things interesting, and always keeps me on my toes. I think this goes for all Beezers!" Parkins says. She thinks that every opportunity to show him is an honor and clearly their bond shines through with everything that they do. Parkins says that she is "truly thankful to Jeannie Armstrong for taking a chance on me

IBD, Inflammatory Bowel Disease, Revisited

Filed Under (Dog Nutrition) by B-Naturals.com

By Lew Olson, PhD Natural Health

While I have written on this topic numerous times, this health condition still raises the most questions on the K9Nutrition Facebook page and in private consults. IBD generally starts with the dog having diarrhea. Then it occurs more frequently and sometimes with urgency. Occasionally vomiting occurs and eventually weight loss accompanies IBD.

It is often puzzling and frustrating for dog owners as this disease can be difficult to diagnose. This is because there are numerous other health conditions that can cause similar symptoms. Some of these include parasites (hook and whip worms), certain medications, ingesting a toy or other non-food item, cancer, over-feeding, or feeding too much fat or fiber in the diet. Since dogs can't talk, they can't tell us what hurts or what might have caused these symptoms. Veterinarians are left to search for clues and run tests to try to find the cause.

Often an endoscopy is done. This consists of putting a scope into the dog's intestines to look for damage or inflammation. When inflammation is present, without evidence of tumors or cancer, IBD is diagnosed. Often at this point, veterinarians prescribe antibiotics and steroids, and advise feeding prescription dog food.

While these things work - at least temporarily, they only mask the problem. The steroid medication takes down some inflammation for a time and the high-fiber prescription food works by removing excess moisture from the stools. However, the steroids cause other side effects if used long term and the high-fiber diet continues to irritate the digestive tract

lining, which continues to cause inflammation and discomfort.

Veterinarians will often speak of food intolerances and ask owners to feed a single protein. I do not agree with this perspective. Some improvement may be seen with just a food change, but if it is a dry food, the irritation will continue. Additionally, when dogs are fed only one protein source, they can develop allergies and/or nutritional deficiencies on such a restricted diet when fed long term.

In my opinion, several things can lead to Inflammatory Bowel Disease. Oftentimes, IBD is seen in dogs that are anxious or stressed easily, have a lot of energy, are more reactive, and they have been fed a dry commercial dog food throughout their life. When you combine this type of temperament with dry food, the dog may secrete more gastric juices causing additional irritation to the intestinal lining. When this continued irritation occurs over time, it leads to thickening and inflammation of the intestinal lining.

So what is the best answer? The first thing I might suggest is to only feed a moist diet. Moisture in food helps with digestion and is less irritating. I would also suggest a fresh food diet, either home cooked or raw. A raw diet can be carbohydrate free, which offers less fiber to irritate the small intestine. Dogs are NOT designed to ferment food or handle fiber. I suggest the low-glycemic, low-fat cooked diet to start OR, a lower fat raw diet (remove all skin from chicken, use low fat

meats and low or non-fat yogurt and cottage cheese). You can find more information on these diets in these newsletters:

Carbohydrates and Low Glycemic Diets Part I

Carbohydrates and Low Glycemic Diets Part II

Secondly, and very important, I suggest feeding three to four smaller meals daily to start rather than one or two large meals. Smaller meals are easier to digest and allow the digestive tract some time to heal.

Lastly, it is important to add supplements that help heal the intestinal lining and form better stools. These include:

L-Glutamine is an amino acid that, when given in the right amounts, helps heal the digestive tract lining.

Animal Based Digestive Enzymes help break down and predigest fats in the stomach making them easier to pass through the small intestine. Probiotics, which contain the good bacteria, help heal the digestive system and replace the 'good' bacteria that gets lost with prolonged diarrhea.

You can find all of these supplements in the Berte's Digestion Blend. I designed this blend specifically for Buddy, a dog I had years ago that had IBD. Prior to changing his diet and adding Berte's Digestion Blend, I could hardly get him to a show, let alone show him, due to his severe stress and diarrhea. When I changed his diet and added the Digestion Blend, he became well after 6 weeks and never suffered another incident of IBD again for the rest of his life. After he was healthy, he obtained his CD (Companion Dog, or obedience title) and his AKC Championship! I also suggest giving Berte's Immune Blend at full dose for several months, or until you know your dog is completely healed. I recommend feeding your dog four smaller meals daily and dividing the dosage evenly between each of the four meals.

The healing process takes time and patience. This disease oftentimes gets better, then it takes a step back. It then gets better again, then gets slightly worse, and then gets progressively better. Depending on the severity of the IBD in each dog, healing can take from two to six weeks on average. Once the intestinal lining has healed, more fat can be added to your dog's diet. If you are feeding a home cooked diet, I suggest the Low-Glycemic, Regular Fat diet. If you are feeding a raw diet, you can also add more fat. Once healing has occurred, you can also move from four meals daily to three, and eventually back to two meals a day!

Should your dog start exhibiting any of the symptoms again, restart them on the Berte's Digestion Blend and go back to feeding three to four meals per day. In some anxious dogs, stress can cause a relapse. Some stress situations can include boarding, traveling and surgery with anesthesia. However, oftentimes, if you are feeding a raw or home-cooked diet, once the dog has healed, relapses are rare. Should you have any questions, please feel free to email me.
