# From the President

In just a few short weeks many of us will be gathering at the 2016 National Specialty. I can hardly wait to see everyone and hopefully meet a few new people too. I know it is always a hectic week, however, I am encouraging our members introduce themselves to a face you don't recognize. Many people are shy and the event can be quite overwhelming for all of us so just go up and say "Hi". It doesn't cost us anything to be kind.

We have many things the Board and various committees are working on at this time to include an update to the Versatility Award program and the Ibizan Hound Illustrated Standard, so be certain look for further announcements.

By now you have received an email announcement regarding the need for a new Third Eye editor. The Third Eye is our primary source to communicate with our

members as well as provide educational and informational materials. Meegan Pierotti-Tietje has done a fabulous job for quite sometime and IHCUS Board wishes to thank her for the dedication she has given to this position and for the on-going support she wants to provide to the TE.

For those of you who have not experienced working on a Board I want to say it's a rewarding but tough job. There are so many aspects and issues we have to consider then there are things like the National Specialty that, when we don't have the volunteers or support of the membership, takes up time and resources we should dedicate to other items. Each year we struggle with finding volunteers to help with the Specialty, something I truly cannot comprehend. I am asking you to consider what you may have a bit of time to help do and to please put aside differences with other members to help accomplish a goal for something we all love.....the Ibizan. As we approach the 2016 Specialty, we are already beginning to make plans for the 2017 Specialty which will be held at Purina Farms. We need many volunteers for the show to include a Show Chair, Trophies and many other committees. If we have different people take on just one job, it truly eases the work required to put on

the entire event. Having the Specialty at Purina Farms also puts us at an advantage as many items are already in place. We have a wonderful judging panel lined up with Alicia Kittrell from California as our Sweepstakes judge and Valerie Hamilton from Tennessee as our Conformation and Juniors judge. IHCUS is fortunate to have so many talented and knowledgeable members and I am looking forward to discuss the opportunities to work together to make the specialty great.

In this issue you will find your ballot to vote for the 2016 Outstanding Sportsmanship Award recipient. Please be sure to submit your vote, each vote really does matter. You will also find information about the upcoming specialty including how to still sponsor a trophy and get your wearable items. Please remember to visit [www.ihcus.org/2016-specialty](http://www.ihcus.org/2016-specialty) for the complete itinerary as well as the premiums for AKC & ASFA Coursing, Specialty Show and the all breed show with Three Rivers.

Sincerely,

Christy Shaw

IHCUS President

# From the Editor

Hello members, by now you've had word that I am regrettably stepping down for the position of your Third Eye Editor. I want to thank each and every one of you for your incredible support and kindness as we grew the third eye into something full of life and vigor. I hope that you will continue to write in, submit content and support the new editor. speaking of which, any of you can volunteer for this position! Trust me, its a GREAT creative outlet and if you have

some basic computer skills, your qualified. Please consider volunteering to write an article or take some photos. If you have an interesting fact, share it! If your dog completed a new title, let us know! This, like everything else related to our breed club, is what YOU make of it. I trust that you'll all keep the torch lit for yourselves and for future generations.

Your friendly Third Eye Editor,

*M. Pierotti-Tietje*

***CRUFTS QUALIFYING CERTIFICATES***

The Kennel Club, England, has designated the AKC National Championship, sponsored by AKC and Royal Canine, as well as one designated AKC Parent Club National Specialty in each eligible breed, as the United States qualifying shows for Crufts. Recipients of Best of Breed, Best of Opposite Sex, Selects and Awards of Merit, and if offered at

these events, Best Bred-by-Exhibitor, are eligible for entry in Crufts as a U.S. International qualifier.

The Ibizan Hound Club of the United States has designated the September 16, 2016 National Specialty as their Crufts qualifying show. Recipients of BOB, BOS, BBE, Awards of Merit, and Selects, will each be given an eligibility certificate to enter Crufts. Each certificate is good for Crufts entry in either 2017 or 2018, and must be submitted along with each entry for Crufts to verify qualification. Complete information on Crufts, including entry details, are available on the Kennel Club's website at [www.thekennelclub.org.uk](http://www.thekennelclub.org.uk) or from the Kennel Club at Clarges Street, London, W1J 8AB, UK.

Sincerely,  
Neil Singer

## ATTENTION EXHIBITORS

No hard copy premiums will be sent unless requested, for a hard copy premium please contact: Foy Trent Dog Shows

**Attention Exhibitors!**  
**IBIZAN HOUND CLUB OF THE UNITED STATES**  
**HEALTH CLINICS**

**ALL BREED**

**CERF -- BAER -- HEART CLINICS – MICROCHIPS**

**LOCATION:** (For Microchips/CERF and BAER Clinics)

***Purina Farms - Little Red Building East of the RV parking***

**10:00 AM CST - to completion**

***PRE-REGISTRATION HIGHLY RECOMMENDED***

***WALK-INS WELCOME!!!!!!***

\*\*\*\*\*

**ALL-BREED OFA CLINIC**

Ben W. Johnson, DVM, ACVO

Dogs must be present at least 20 minutes before Appt. time to receive eye drops.

Pre-Registration: \$28.00 per dog — Walk-In: \$35.00 per dog

\*\*\*\*\*

**ALL-BREED BAER CLINIC**

Donald York, Ph.D. FASNM

No Drugs Used.

Pre-registration: \$50.00 per dog---Walk-ins: \$55.00 per dog

\*\*\*\*\*

**ALL-BREED MICROCHIP CLINIC**

\$25.00 per dog inserted or purchase chips separately.

Prepaid AKC CAR Lifetime Registration, free info updates

ISO 34.2 kHz Chips

\*\*\*\*\*

**ALL-BREED HEART CLINIC**

***Minimum Of 18 Dogs Will Be Required For The Heart Clinic To Take Place***

**H. Cecilia Marshall DVM, DACVIM (Cardiology)**

**From: Veterinary Specialty Services; Manchester, MO**

**AUSCULTATION - Pre-registration: \$65.00 per dog---Walk-ins: \$70.00 per dog**

**ECHOCARDIOGRAM and Auscultation -- Pre-registration: \$180.00 per dog--**

**Walk-ins: \$185.00 per dog**

The veterinarian always encourages echocardiogram for Ibiza Hounds, as they have a high rate of benign functional murmurs which cannot be cleared without an echo.

Dog must be 1 year or older for the results to be submitted to OFA

\*\*\*\*\*

**NEW THIS YEAR: CHIC DNA Repository Collection**

The Pharaoh Hound Club has generously allowed IHCUS to have DNA blood samples collected by a licensed veterinarian club-member. The cost to Ibiza Fanciers is \$22.00 per dog for sample shipping, storage, and maintenance by the CHIC Repository. The CHIC DNA Repository collects and stores canine DNA samples along with corresponding pedigree & health history information to facilitate future research aimed at reducing the incidence of inherited disease in dogs. The CHIC DNA Repository allows multiple researchers to utilize each sample, so one collection from your dog can provide data for multiple genetic studies. Additionally, the research studies must pass a review board to ensure appropriate utilization of the samples for well-designed research. The IHCUS Health Chair HIGHLY encourages participation for the health of the breed!

This draw will take place on FRIDAY September 16 at the Haig Motorhome in the RV lot 2-4pm

Pre-registration via the IHCUS website

<http://www.ihcus.org/prestashop/health-clinics/210-chic.html>

is highly recommended to ensure sufficient DNA collection kits are on-site;

however, walk-ins are welcome.

## Hotel Dog Guest Guidelines

All Dog Show Guidelines Apply

Time of Arrival: after 4pm / Departure Time: by 11am  
Dogs left unattended in a guest room must be in a crate.  
Plastic sheeting should be placed under each crate in the  
guest room area

Hotel guest with dogs in the room need to use the special  
door hanger provided by the hotel. This hanger will leave  
instructions to the housekeeping staff. Housekeeping will  
not enter the room unless the door hanger is present

Housekeeping must be allowed to clean a guest room (with  
dogs) at least every two days. Guests who have special  
requests (i.e. a certain time of the day that the room will be  
vacant) can discuss them with the housekeeping staff upon  
arrival

Owners/exhibitors should bring their own toweling for  
bathing the dogs. A daily inventory for missing or  
damaged towels will be taken. Any necessary charges will  
be applied to the guest

Bathing and/or grooming of dogs in or right outside the  
guest room is not allowed. The hotel will impose a \$100  
penalty to anyone found grooming in this manner. The  
hotel has a grooming house on the grounds, which will be  
available for use. Grooming is not allowed on any  
sidewalks

The individual guest will be responsible for any damage to  
a guest room or any hotel property. This includes, but not  
limited to, replacement cost for carpeting if odors or stains  
cannot be removed with traditional cleaning methods

Dogs are to be leashed at all times when out of the guest  
room

The hotel and the show committee will investigate any  
problem areas that are outlined above. Any guest not  
following the above guidelines will be asked to check out  
of the hotel without refund

Dogs will not be allowed in the following public areas: the  
lobby, restaurant, lounge, Holidome, and the respective  
hallways to the areas listed

There will be a \$100 fee for any removal of guest room  
furniture. All furniture must remain in the room at all  
times

Extension cords are not allowed to be plugged in to rooms  
from a vehicle, trailer, or camper in the parking lot

Room assignment is at the discretion of the hotel. Special  
request, such as drive up rooms, will be granted on a first  
come first serve basis. This basis is in reference to the date  
the room was reserved, not the date the guest arrives

Our hotel cannot guarantee any special request. We will,  
however, try our best to meet your wishes

# IBIZAN HOUND CLUB OF THE UNITED STATES

## **2016 IHCUS National Sweeps Judge:**

### **Nancy Billups**

I grew up with toy poodles and German shepherds and was showing as a child although somewhat sporadically as my Dad liked to motor cross so I did that a lot! I got back into showing in my late twenties when I got a whippet puppy from a friend who also had Ibizans. I fell in love with her female named "Batty", CH Cien's Cara Mia By Danzante. She lived with her but she let me show her if I was going to a show. I have always owned, bred & shown whippets & later on thought adding an Ibizan Hound would be fun & it has been! I got my first Ibizan from Nancy & Harry Stabler, "Dreamy", CH Imagery Cloud Nine Dream Supreme who had me hooked the minute I got her! I have been lucky to have had beautiful Ibizans over the years from fabulous breeders & have finished them all & also had some nice group placements as well. It has been so awesome to see how nicely our breed has evolved over the years & I am deeply honored that my peers have asked me to judge their beautiful puppies! I look forward to seeing everyone & their fabulous Ibizans at the National.

## **2016 IHCUS National Specialty Judge:**

### **Russell McFadden**

My experience with sighthounds dates back 45 years at this point in time. I got my first Afghan Hound in 1971 and two years later my first Whippet. Since that time I have bred a number of Whippet champions under my Timbrel prefix and had some tremendous good fortune with a very small breeding program. Over the years, I have also owned and shown Salukis and one very incredible Ibizan Hound. I currently have two Whippets and a Saluki.

I initially started studying Ibizan Hounds so that I could apply to judge them as part of the Hound Group. The more I learned about and was around this fascinating breed the more I liked and enjoyed them. So it was inevitable that I would end up owning one (although truth be told it was much more the other way around). I picked Cali up from her breeder, Mary L. Toliver, in March of 1992 and my household was changed for the next twelve years. Cali who became Ch. Hemato Cosa Caliente Timbrel was probably one of the smartest dogs I've ever known. She was a complete joy to be around and live with – except, of course, when she was showing all of my other dogs how to get into the same mischief that she had just figured out how to get into herself.

I was approved to judge Ibizans in 1992 by the AKC and shortly after that I had one of the greatest honors any judge could have given them bestowed upon me – I was asked to judge the first Ibizan Hound Club of the United States National Specialty ever held. This event took place on March 25, 1993, in Scottsdale, Arizona.

I joined IHCUS in the mid-1990s and was the Judges Education Coordinator for three years during the tenure of my membership. I was also the Show Chair for the three IHCUS National Specialties that were held in Albuquerque, New Mexico during that timeframe.

I want to thank the members of IHCUS for asking me back to once again judge your National Specialty. I am greatly honored once again.

# Breed Standards. A Comparison.

Below you will find two standards for the same breed. Ours. On the left, the FCI standard and on the right, the AKC standard.

## PODENCO IBICENCO

TRANSLATION : C.Seidler.

ORIGIN : Spain (Balearic Islands).

DATE OF PUBLICATION OF THE ORIGINAL VALID STANDARD : 26.05.1982.

**UTILIZATION** : The Podenco Ibicenco is mainly used for hunting rabbits without guns, by day and at night. Thanks to his particularly good scenting ability, which, coupled with hearing, he uses more than sight, he scents and hunts out rabbits with ease, even in dense cover. Nimble and bright, he catches his prey quickly, specially when hunting together with other dogs. When one dog indicates game, he is surrounded by all the others, which keep a certain distance and stand in wait. They bark only when they see or hear the game and when they have surrounded it. Both when indicating and catching game, all dogs wag their tail fast, but are easily put off their waiting attitude. The Podenco Ibicenco is also used for hunting hare and large game. He is a good retriever. With certain exceptions only bitches are used for the formation of a pack or, at most, with one male only, as the latter do not work together during a hunt and are quarrelsome. When a pack has caught several thousand rabbits, it can happen with this breed, that some dogs from the same pack no longer want to hunt until they have had a considerable rest. The Spanish expression « enconillarse » ( go to rest ) refers to this peculiarity.

**CLASSIFICATION F.C.I.** : Group 5 Spitz and primitive types.

Section 7 Primitive dogs.  
Without working trial.  
type-Hunting

**BRIEF HISTORICAL SUMMARY** : This breed originates in the Balearic Islands of Majorca, Ibiza, Minorca and Formentera, where it is known by the original name of « Ca Eivissac ». It is also widely found in Catalonia, round Valencia, in the Roussillon and in the Provence, where it is known by the names

## Ibizan Hound

Approved September 11, 1989

Effective November 1, 1989

### **General Appearance**

The Ibizan's clean-cut lines, large prick ears and light pigment give it a unique appearance. A hunting dog whose quarry is primarily rabbits, this ancient hound was bred for thousands of years with function being of prime importance. Lithe and racy, the Ibizan possesses a deerlike elegance combined with the power of a hunter. Strong, without appearing heavily muscled, the Ibizan is a hound of moderation. With the exception of the ears, he should not appear extreme or exaggerated.

In the field the Ibizan is as fast as top coursing breeds and without equal in agility, high jumping and broad jumping ability. He is able to spring to great heights from a standstill.

### **Head**

Long and narrow in the form of a sharp cone truncated at its base. Finely chiseled and extremely dry fleshed.

#### **Expression**

The Ibizan has an elegant, deer-like look. The eyes are oblique and small, ranging in color from clear amber to caramel. The rims are the color of the nose and are fully or partially pigmented. The appearance of the eye is intelligent, alert and inquisitive. The ears are large, pointed, and natural. On alert the ear should never droop, bend, or crease. Highly mobile, the ear can point forward, sideways, or be folded backward, according to mood. On alert, the lowest point of the base is at level of the eye. On frontal examination, the height of the ear is approximately 2½ times that of the widest point of the base.

### **Skull**

Long and flat, prominent occipital bone, little defined stop; narrow brow. The muzzle is

Mallorquí, Xarnelo, Mayorquais, Charnegue, Charnegui and Balearic Dog. Probably these dogs were brought to the islands by the Phoenicians, Carthaginians and eventually also the Romans.

This dog is a typical primitive and robust representative of one of the oldest still existing breeds. Illustrations of these dogs are found in the graves of the Pharaohs and on objects in museums, so that the existence of the breed can already be proved in the year 3400 BC.

**IMPORTANT PROPORTION :** The distance from the tip of the muzzle to the eyes is equal to that from the eyes to the occiput.

**HEAD :** Seen as a whole, the long, fine head has the appearance of a cone cut off near its base ; completely dry, rather small in relation to body.

#### **CRANIAL REGION :**

Skull : Long and flat (dolichocephalic). Occipital bone protruding. Forehead fine and flat.

Stop : Barely pronounced.

#### **FACIAL REGION :**

Nose : Nose leather flesh colour. Nostrils open. Nasal bridge slightly arched.

Muzzle : Nasal bridge and nose protrude over lower jaw ; fine, long and according to colour of coat, flesh colour.

Lips : Thin, close fitting, flesh colour.

Teeth : Perfect fitting bite, scissor bite, white and regular.

SKIN : Taut, close fitting to body ; reddish pigment, but may be a different colour where coat colour differs.

Eyes : Slanting, small, light amber colour, reminiscent of caramel colour. The amber colour can be more or less intensive according to coat colour. Without seeming very noble, the expression shows intelligence but also fear and mistrust.

Ears : Always stiff, very mobile. Pointing forward or sideways in a horizontal plane or held backwards. Upright when dog is animated. The center of the ear set on is level with the eyes . The shape is that of an elongated rhomboid, which has been cut off by a third of its long diagonal. They are fine without hair on the inside of the ear opening ; of medium, not exaggerated size.

**NECK :** Very dry, both in its upper and lower part. Its length is a quarter the length of the body, slightly arched and muscular. Skin is taut, smooth, without

elongated, fine, and slender with a very slight Roman convex. The length from the eyes to point of nose is equal to the distance from eyes to occiput. The muzzle and skull are on parallel planes. The nose is prominent, extending beyond the lower jaw. It is of a rosy flesh color, never black or liver, and tends to harmonize with that of the coat. Pigment is solid or butterfly. Nostrils are open. Lips are thin and tight and the color of the nose. Flews are tight and dry fleshed. Bite--The teeth are perfectly opposed in a scissors bite; strong and well set.

#### **Neck, Topline, Body**

The neck is long, slender, slightly arched and strong, yet flat muscled. The topline, from ears to tail, is smooth and flowing. The back is level and straight. Body --The chest is deep and long with the breastbone sharply angled and prominent. The ribs are slightly sprung. The brisket is approximately 2-1/2 inches above the elbow. The deepest part of the chest, behind the elbow, is nearly to or to the elbow. The abdomen is well tucked up, but not exaggerated. The loin is very slightly arched, of medium breadth and well muscled. The croup is very slightly sloping. The tail is set low, highly mobile, and reaches at least to the hock. It is carried in a sickle, ring, or saber position, according to the mood and individual specimen.

#### **Forequarters**

Angulation is moderate. The shoulders are elastic but never loose with moderate breadth at the withers. The shoulder blades are well laid back. At the point of the shoulder they join to a rather upright upper arm. The elbow is positioned in front of the deepest part of the chest. It is well held in but not so much as to restrict movement. Legs --The forearms are very long, strong, straight, and close, lying flat on the chest and continuing in a straight line to the ground. Bone is clean and fine. The pasterns are strong and flexible, slightly sloping, with well developed tendons. Dewclaw removal is optional. **Feet:** hare-foot. The toes are long, closed and very strong. Interdigital spaces are well protected by hair. Pads are durable. Nails are white.

#### **Hindquarters**

Angulation is moderate with the hindquarters being set under the body. Legs--The thighs are very strong with flat muscling. The hocks are straight when viewed from the rear. Bone is clean and fine. There are no rear dewclaws. The feet are as in front.

dewlap. Normally, the coat is longer and denser in the region of the set on to the body, especially in the smooth variety.

**BODY** : Regarded as a whole, the body is symmetric, slightly convex and of medium, even proportions, compact and slightly longer than height, without the differences being laid down exactly.

Withers : Well defined, high, dry and long.

Back : Long, straight and pliable. Muscles strong, yet flat.

Loins : Arched, of medium breadth, strong and firm.

Croup : Strongly sloping with bone structure visible ; it shows very strong, hard muscles.

Chest : Deep, narrow and long, but not reaching to the elbows. Forechest pointed and strongly protruding. Ribs flat.

Abdomen : Tucked up, but not too much.

TAIL : Set on low ; there should be some longer and coarser, slightly offstanding hairs (like ears of grain) towards the tip ; long. When the tail is pulled through between the legs, it should reach the spine. Slightly thicker at set on, gradually tapering towards the tip. Hanging naturally in repose ; in movement carried in sickle shape more or less tightly curved. Preferably not carried upright or too much curled over back.

**FOREQUARTERS** : Vertical, symmetric. Seen from front, the position of the front legs is very close together ; altogether sturdy, with long limbs which give the impression of a slim, fast, yet strong animal.

Shoulders : Shoulder blades slanting, strong and freely mobile.

Upper arm : Very long, straight, strong and very close in position.

Elbow : Broad, set well apart from the body, parallel to the median plane of the body, but never loose.

Forearm : Broadening towards front pastern.

Pastern : Strong, firm, broad and well upright

**FEET** : Almost harefoot. Toes long and close together. Profuse hair in space between toes ; nails very strong and normally white, occasionally according to coat colour. Pads very hard.

**HINDQUARTERS** : Vertical with long, strong, flat muscles.

**Hock** : Well angulated, broad, set low, vertical, turning neither out nor in.

## **COAT**

HAIR : Smooth rough or long hair.

- The smooth should not be silky, but strong and shiny.
- The rough should be hard and very dense, somewhat

## **Coat**

There are two types of coat; both untrimmed. Shortest on head and ears and longest at back of the thighs and under the tail. Wire-haired can be from one to three inches in length with a possible generous moustache. There is more hair on the back, back of thighs, and tail. Both types of coat are hard in texture and neither coat is preferable to the other.

## **Color**

White or red, (from light, yellowish-red called "lion" to deep red), solid or in any combination. No color or pattern is preferable to the other. Disqualify any color other than white or red.

## **Gait**

An efficient, light and graceful single tracking movement. A suspended trot with joint flexion when viewed from the side. The Ibizan exhibits smooth reach in front with balanced rear drive, giving the appearance of skimming over the ground.

## **Temperament**

The Ibizan Hound is even-tempered, affectionate and loyal. Extremely versatile and trainable, he makes an excellent family pet, and is well suited to the breed ring, obedience, tracking and lure-coursing. He exhibits a keen, natural hunting instinct with much determination and stamina in the field.

## **Disqualification**

Any color other than white or red.

shorter on head and ears and somewhat longer on rear of thighs and underside of tail. A beard is highly valued. The longhair is softer and should have at least a length of 5 cm. The head is very densely coated.

**COLOUR** : Preferred are white and red, or entirely white or red. Fawn dogs are permitted, provided it is an exceptionally good specimen ; in smooth coats, however, this colour is not permitted.

**GAIT/MOVEMENT** : The preferred movement is a suspended trot. Gallop is very fast and gives the impression of great agility.

**FAULTS** : Any departure from the foregoing points should be considered a fault and the seriousness with which the fault should be regarded should be in exact proportion to its degree and its effect upon the health and welfare of the dog.

**SERIOUS FAULTS** :

- Head short and broad.
- Stop markedly pronounced.
- Missing of a premolar.
- Drop ears.
- Barrel ribs.
- Elbows turned outwards.
- Cow hocks.
- Feet turned out.
- Crossing of feet and hocks in movement.

**ELIMINATING FAULTS** :

- Aggressive or overly shy.
- Skull in the shape of a stair( plane of skull too high in relation to nasal bridge).
- Brown pigment or black spots on nose leather.
- Any form of prognathism.
- Eyelids and lips : Reddish brown.
- Evidence of crossing with a « Galgo » or other form of sighthound :
- Folded ears.
- Dark eyes.
- Croup broad.
- Barely defined forechest.
- Front legs wide apart.
- Thighs rounded and broad with visible veins.

Any dog clearly showing physical or behavioral abnormalities shall be disqualified.

**N.B.** : Male animals should have two apparently normal testicles fully descended into the scrotum.

## Just a Note:

The Third Eye's Next Issue will be our Fall 2016. deadline is September 1st

If your thinking about placing an ad remember that this is a large issue and we want to be sure we get your dogs Ad in!!!

Please email [Thirdeye@ihcus.org](mailto:Thirdeye@ihcus.org) to reserve your spot!

The Third eye is ALWAYS accepting photos for backgrounds, table of contents and of course our fantastic cover!

If you have a photo you would like to submit please be sure its at least 300 Dpi and email us with your submission!

If you would like to submit an article, or cover an event please do! The Third eye accepts, poetry, Art submissions and articles!

# Don't Forget To Pick Up Your IHCUS Welcome Bag Located At The Purina Welcome Center

## Feed *your* breed.

Feeding Purina® supports the future of your breed.

Since 2002, the Purina Parent Club Partnership program has raised more than \$5 million to support canine health research, education and rescue efforts. Below is how it all works and how you can get involved.

## HELP IHCUS Benefit from this program!

All money IHCUS earns through this program goes to our health research, education and/or rescue efforts

### Purina® Parent Club Partnership (PPCP) Program

(<https://purinaproclub.com/why-purina/ppcp>)

Since 2002, thousands of fellow dog breeders and enthusiasts have declared their participation in the Purina Parent Club Partnership (PPCP) Program. This program allows national parent breed clubs to individually earn funding based on Purina weight circle submissions by Pro Club® members.

#### How it Works

Pro Club members submit weight circles from bags of participating Purina® Brand Dog Foods and accumulate weight circle points as part of the Pro Club Weight Circle Program. (Refer to Purina Pro Club Weight Circle Program for the program details). Purina tracks these weight circle submissions, and for every \$100 of qualifying weight circle points earned by Pro Club members, Purina donates \$10 to the participating national parent breed club. It is as simple as that.

Points are accumulated throughout a calendar year, and a check representing 10 percent of the value of the submitted weight circles for the year is evenly split between the participating national parent breed club and the AKC Canine Health Foundation. Since all funding is incremental to the weight circle program, your participation in the PPCP will not result in a reduction of the points you personally earn.

#### Funding Distribution

One half of each club's individual annual earnings is issued directly to the Canine Health Foundation to support research grants aimed at a better understanding of genetics and other conditions impacting our dogs' health. The other half is issued to the individual national parent breed club for use in the support of canine health research, education and/or rescue efforts (IHCUS received \$306.76 this year).. The PPCP Program has raised in excess of \$3.5 million for canine health research, education and rescue efforts since 2002.

In addition to helping fund canine health research projects, the funding returned to the individual clubs has been used to help support educational outreach programs such as scholarships, library support, youth programs and conservation education programs. It has also been used to support judges' education seminars, to produce breed specific educational materials and to produce responsible dog ownership materials.

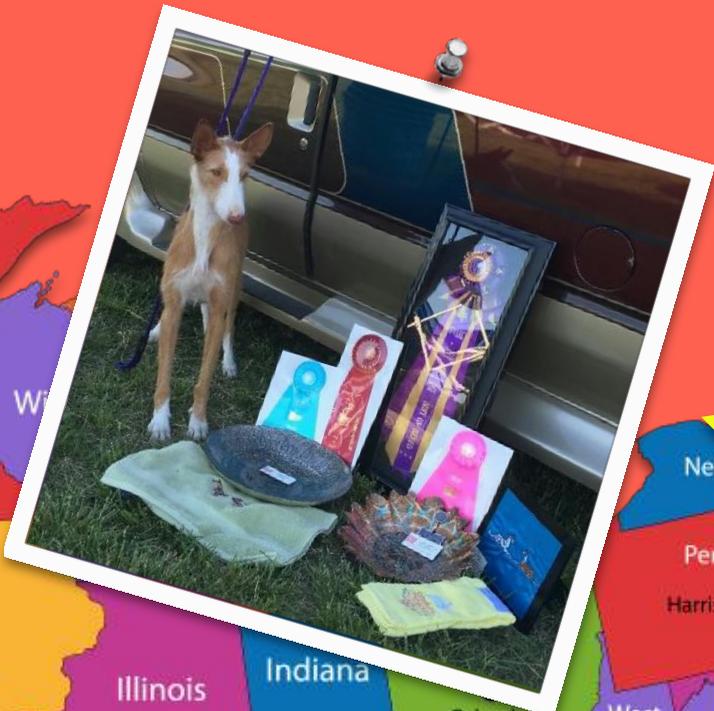

Rescue programs have benefited with funds being used for the direct care of dogs in need, the development of fund raising tools and the support of adoption events.

#### How to Participate in the PPCP Program

You must be a Purina® Pro Club® Member to participate. Pro Club® members must individually declare their participation in the program and identify the national parent breed club that will receive their Purina Points. **Members may declare for their national parent breed club by calling the Purina® Pro Club® toll-free number at 1-877-PRO-CLUB (1-877-776-2582) from 7 a.m. to 5 p.m. CST, Monday through Friday, or by registering on this site: ([https://pointcenter.purinaproclub.com/PurinaNet\\_CW/Pages/PointCenter/MyAccount/SignUpPage1.aspx](https://pointcenter.purinaproclub.com/PurinaNet_CW/Pages/PointCenter/MyAccount/SignUpPage1.aspx))** Pro Club members can only earn funds for their national parent breed club if the national parent breed club is enrolled in the PPCP Program (*IHCUS is enrolled*).
